About AMAZE

AMAZE.org was founded because experts in various fields came together and identified a problem: young people have questions about their bodies and lives, but are often being met with silence and shame. With over 20 million views, AMAZE has published over 80 animated videos covering puberty, consent, sexual orientation, healthy relationships, and more.

Responsibilities include...

- Participation in an introductory survey, approx. 20 min.
- Participation in monthly video conference calls
- Speaking with media (upon request)
- Provide counsel on video ideas, content, new initiatives and other AMAZE related items
- Commit to recruiting 3-5 peers for additional feedback
- Participate in AMAZE in-person events as they arise (optional and upon availability)

Ideal candidates are...

- 10-16 years of age
- Passionate about the health and rights of young people
- Willing to be trained to speak to the media about young people's health
- Willing to advise AMAZE program staff to ensure content is relevant and helpful to young people

Compensation: Ambassadors will receive \$50 per month for their participation.
